Cuneo, 15th January 2021

To all Customers

Object: REACH declaration

In June 2007, the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) was first released. This Regulation establishes specific duties and obligations for Companies in the European Union (EU) that manufacture or import substances on their own, in preparations or in articles. Under the structure of the REACH Regulation **ErreBi Paper S.r.l.** is a paper made *articles* manufacturer, we do not manufacture or supply *substances* or *preparations* and our articles do not involve the “intentional release of substances”. Accordingly, we foresee no registration or pre-registration requirement for the products we supply to you.

ErreBi Paper S.r.l. declares moreover that all articles manufactured are made without intentional use and/or addition of SVHC substances, listed in the attachment XIV of the regulation (EEC) n° 1907/2006 or mentioned in the Candidate List of substances of very high concern for authorization (published in accordance with article 59 of the REACH Regulation).

The above statement is based on official engagement taken by our qualified suppliers, from whom **ErreBi Paper S.r.l.** has received declaration about the presence or not of SVHC, according to which **ErreBi Paper S.r.l.** assume that all finished products manufactured contain no or less than 0.1% of SVHC. Since we do not expect these substances to be present, we do not run any analysis on our raw materials or our finished products to search them and confirm the absence. Also we do not expect the packaging of our products to contain any of the substances included in the SVHC candidate list in a concentration above 0.1 % by weight, based on preliminary information received from our suppliers.

ErreBi Paper S.r.l. is constantly monitoring the substances of very high concern (SVHCs), as defined by REACH, in our products. This will be an on-going process since the complete list of SVHCs will be released in stages, to ensure prompt update of the documentation and to follow up on any new information should rise-up on that subject. You can find the mentioned most updated Candidate List substances at http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp. Therefore **ErreBi Paper S.r.l.** will inform immediately every involved subject in case of relevant updates.

Your sincerely

ERREBI PAPER S.R.L.

Simone Boselli
