

The Management of **ErreBi Paper** has established this policy aimed at applying the requirements of the **FSC® standard**, to promote the use of wood raw material that comes from an environmentally, socially and economically **sustainable management**.

**ErreBi Paper** is committed to making every effort to identify the sources of cellulose in labelled products according to the FSC standard, in order to guarantee their legal origin. If the impossibility to identify the origins of some of these raw materials is proven, we will replace these materials with others whose origin is more reliably identified.

- The significant conversion of forests into plantations or land for non-forest use;
- The introduction of genetically modified organisms into forestry activities;
- The violation of the principles of the ILO CORE CONVENTIONS, as defined in the ILO Declaration of Fundamental Principles and Workers' Rights, 1998.
